

CASE STUDY

- **Project:** Hotel rooftop solar thermal
- **Client/ Site:** Tower Hotel, London

Tower Hotel - London

We were approached directly by the client's QS, looking for a cost saving on their gas -fired hot water system, and having specified the LaZer2 solar thermal system, we designed, supplied, and installed 143 m² of LaZer2 solar thermal collectors, generating c.93.4MWh-th.

Our 4-man team led by lead LaZer2 installation engineer, Nick Martyn, and project managed by our Technical Director, Duncan Lee, installed and commissioned the system in c.3 months.

Based in East Sussex, Solar UK have been installing solar PV and solar thermal in the UK and Europe for 25 years. Solar UK manufactures, supplies, installs and maintains fully accredited, advanced solar systems specifically for the UK climate.

As well as being trusted suppliers and installers to both domestic and commercial customers, Solar UK is also one of the UK's leading solar research and development companies.
