

CASE STUDY

- Urban location
- Swimming pool heating via solar thermal
- Residential client direct

Residential client - Kent

This system comprised a 6-Collector LaZer2 solar water heating system for the client's property/pool. The flat roof array measured W: 2210mm x D: 2460mm and weighed 172kg. The pitched roof array measured W:2210mm x D: 1230mm and weighed 96kg.

We utilised a 70kW pool heat exchanger that we located in the pool plant room. The pump station included an expansion vessel, filling loop, flow meter, pump, pressure gauge and one-way valve.

Based in East Sussex, Solar UK have been installing solar PV and solar thermal in the UK and Europe for 25 years. Solar UK manufactures, supplies, installs and maintains fully accredited, advanced solar systems specifically for the UK climate.

As well as being trusted suppliers and installers to both domestic and commercial customers, Solar UK is also one of the UK's leading solar research and development companies.
